

40 Years of Precision Machining

ARCADIA, OH - To celebrate its 40th year in operation, RPM hosted an open house on October 5, 2007.

The open "shop" took place from 11 a.m. to 5 p.m. and gave friends, family and community members a chance to view RPM's extensive tooling operation.

During the open shop, visitors were provided the opportunity to tour the facilities and view the state-of-the-art machining technologies and process controls that have made RPM an industry leader. Company employees were on hand to answer questions and provide explanation on the various pieces of equipment and their operation.

For 40 years, RPM has made its home in Arcadia, Ohio. The company provides the automotive, fastener, metal container, medical and aerospace markets with some of the highest standards of precision grinding, machining and finishing of close tolerance tooling.

Opening its doors in 1967, the operation and its facility has grown and changed dramatically throughout the years and currently employs 36 people. The company has continually strived to achieve the highest possible standards and is ISO 9001:2000 certified.

Besides the machining and tooling operations, RPM also offers an industrial electrical service and a 77 k Cryogenic treatment.
